3	Livestock standstill feedback	na	na			*	*	*	*	
5	Training module - 'How to use AUSVETPLAN'			1.0	2016	*	*	*		
Updated 15 March 2016										
*: low level input, e.g. 'tail-end' of a new or revised manual development and approval process; minor technical update with few comments expected										
**: medium level input, e.g. reconciling comments on a first draft revision; policy change with comments expected										
***: high level input, e.g. preparation of a first draft (new or revised manual) through expert writing groups and TRG; expected divergence of stakeholder views in consultation process
